COMMENTS/QUESTIONS TO SOLICITATION

18 July 2005

PWS REFERENCE	PARAGRAPH TITLE	COMMENT/QUESTION	CONTRACTING OFFICER'S DIRECT RESPONSE TO QUESTIONS/COMMENTS FURNISHED TO ALL OFFERORS VIA AN AMENDMENT NOT JUST THROUGH CHANGES IN RFP
C.1 2005:Jul:7:04:21:51	C.1	What is the total expected budget for this effort? I am not looking for an exact amount, a ball park figure such as \$1 million, \$10 million, \$100 million, etc. will suffice. Knowing the size of the budget will help us assign the appropriate corporateresources to the effort.	This information, which can be found in Technical Exhibit 15, Section II, indicated in FY03 USACE expended approximately \$423,459,370 in IM/IT cost. RFP 2005:Jul:7:19:32:50	Site Visit Information	The schedule for the site visits is too late in July to allow Offerors to gather data and incorporate it into our response. Request that the site visits to the Western Processing Center and Central Processing Center be given priority and moved to early July prior to the Preproposal Conference.	Due to USACE's mission requirements and the complexity and variety of sites to be visited, the schedule can not be changed. We estimate this will require an excessive amount of the 150 pages allocated for the technical volume. It will be difficult to provide a comprehensive response to the requirements of this RFP to enable USACE to evaluate our understanding of capability and approaches to accomplish the stated requirements with the remaining pages. We recommend the staffing matrices be excluded from the page count.	Staffing Matrices shall be excluded in the Technical Volume page count. Change will be made via an amendment.

RFP 2005:Jul:7:19:46:27	L.9.2	The two-page limit per contract makes it difficult to adequately discuss complexities of required elements (e.g., similar transition experiences and subcontractor management) which are very important to the relevance of prime contractor contract citations. We suggest the Government increase the page limit per contract to three pages. At a minimum, we suggest that the three-page limit apply to prime offeror contracts, where these additional elements are essential to showing successes parallel to those desired on the USACE IMIT contract.	The page limit shall be increased from 2 pages to 3 pages for responses per contract. Change will be made via an amendment.
RFP 2005:Jul:7:19:47:48	L.9.2.1	The paragraph outlining relevant contracts for experience includes the following sentence: "Non-Government contracts may be used if Government contracts are not available." Does the Government intend to rate the relevance of non-Government contracts lower than those of Government contracts?	The Government will rate the relevance of non government and government contract experience equally .
